Aluminum Food Containers

Alpha Omega Pack Factory, is an ISO 9001:2015, ISO 14001:2015, and ISO 45001:2018 certified leading manufacturer of plastic and packaging solutions in the GCC region. Established in 1998, the company has grown from humble beginnings to become a leading name in the industry, recognized for its unwavering commitment to quality, innovation, and sustainability.

Operating out of a highly advanced facility in Umm Al Quwain, United Arab Emirates, Alpha Omega Pack Factory provides a wide range of high-quality products to more than 700 clients across the Middle East and Africa, making a significant impact in the region's packaging industry.

The company marked a significant milestone in its international growth by establishing its first offshore office in the UK in 2024 to serve a wider market.

We are amongst the few manufacturers with ECAS Oxo-biodegradable certified products, fully complying with UAE Standard S. 5009:2009 - reflecting our dedication towards reducing the environmental impact of plastic waste. Certified to the HACCP CAC/RCP 1-1969 standard, our company ensures the highest level of food safety and quality management. Our Aluminum Food Containers are SGS-certified, ensuring full compliance with the European Commission Regulation (EU) 2020/1245 standard for food-grade safety.

We cater to diverse industries, including logistics, hospitality, catering, cleaning, and government sectors. The company also provides white labeling services, allowing clients to customize and brand products according to their specific requirements. Our custom solutions and prompt, reliable service have earned us a reputation for excellence and customer satisfaction.

Aluminum Food Containers

Alpha Omega Pack Factory produces aluminum food containers in a variety of sizes and configurations, including single and multi-compartment options. These containers are engineered for excellent thermal conductivity, ensuring food stays fresh and warm, making them perfect for the food service and catering industries. All our Aluminum Food Containers are SGS-certified, ensuring full compliance with the European Commission Regulation (EU) 2020/1245 standard for food-grade safety and quality. Additionally, we provide lids in various GSM, with custom printing available to meet client specifications.

Key Features:

- **Food-Grade Material:** All containers are made from premium, food-safe aluminum, ensuring hygiene and safety.
- **Wide Variety of Sizes:** Available in multiple sizes and capacities, from 250 ml to 3200 ml, catering to diverse needs.
- **Multi-Compartment Options:** Includes containers with single and multi-compartment designs for versatile food storage.
- **Excellent Thermal Conductivity:** Retains food temperature, keeping it fresh and warm for extended periods.
- **Durability:** Built to withstand high loads and resist deformation, ensuring reliable performance.
- **Leak-Proof Design:** Securely holds liquids, sauces, and other food items without spillage.
- **Disposable and Recyclable:** Easy to dispose of after use and recyclable, promoting eco-friendly practices.
- **Customizable Lids:** Comes with high-quality lids available in various GSM and optional custom printing.
- **Lightweight Construction:** Easy to handle, transport, and stack, optimizing storage and shipping.
- **Corrosion-Resistant:** Maintains quality and prevents reactions with acidic or salty foods.

Application:

Food service, catering, restaurants, takeaways, bakeries, and household kitchens for storing, serving, and transporting hot or cold food efficiently and hygienically.
